

IUCN ACADEMY OF ENVIRONMENTAL LAW

Research and Teaching Information Form

The Academy is in the process of establishing a comprehensive database of research and teaching initiatives in order to assist Academy members in collaborating with each other.

Research interests

Please indicate up to three research areas in which your environmental law faculty members are engaged, or in which they have particular interests.

1. _____
Research Area

Faculty Member

2. _____
Research Area

Faculty Member

3. _____
Research Area

Faculty Member

Capacity-building in teaching

The Academy is working to enhance capacities in environmental legal education, particularly in developing countries. This involves the development of environmental law curricula, the conduct of training the trainer's seminars, the development of electronic teaching materials and on-line teaching, and other forms of web-based learning. Please indicate ways in which your institution may wish to assist in developing the Academy's teaching program:

Please return completed form to:
