TRANSNATIONAL ENVIRONMENTAL LAW

Transnational Environmental Law (TEL) is a peer-reviewed journal that will be launched by Cambridge University Press in 2012.

TEL is dedicated to the study of environmental law and governance beyond the state. It approaches legal and regulatory developments with an interest in the contribution of non-state actors and an awareness of the multi-level governance context in which contemporary environmental law unfolds.

SUBMISSIONS

The Editors of *TEL* warmly invite the submission of manuscripts from scholars, lawyers and professionals active in fields related to environmental law and governance. Prospective authors may also contact the Editors with proposals for planned submissions. The Editors will also consider revised versions of previously released working papers, provided that such publication is clearly acknowledged upon submission of the paper for consideration to *TEL*.

All contributions in the journal are peer-reviewed (double-blind), and will be evaluated on their:

- Originality
- Analytical thoroughness
- Affinity with the mission and scope of the journal
- Conformity with the highest standard of scholarly presentation

TEL will strive to respect a turn-around time of under 6 weeks between receipt of the manuscript and notification of acceptance, rejection or need for revision. All accepted work will be scheduled for publication in print and online. To reduce time between acceptance and publication articles will appear online as FirstView publications in advance of their scheduled publication in print.

For submissions and instructions for manuscript preparation, further information about *TEL* and its editorial and advisory boards, and to sign up for content alerts, please visit the *TEL* journal website at:
